

Containers Versus Virtual Machine

Herman Hollerith Father Of Punched Card (Hollerith Card).

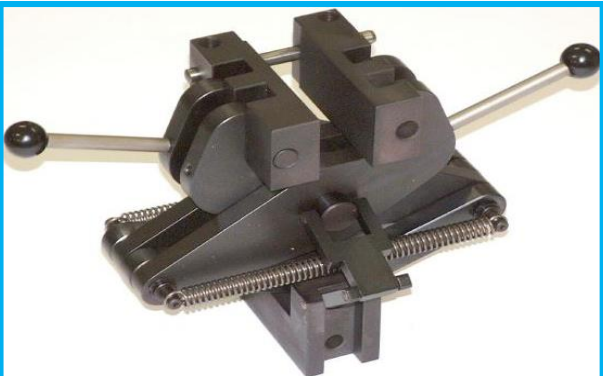

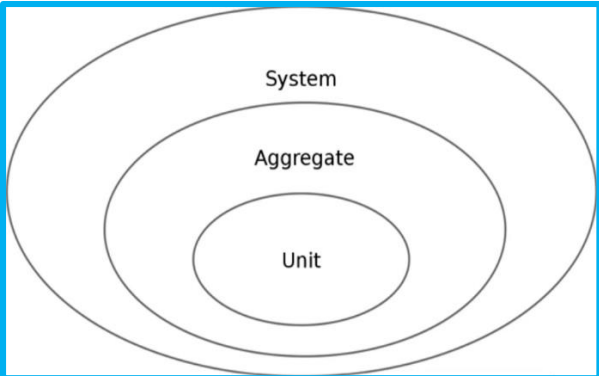

Deep Dive/Java Unit Testing: After Building Structure Expensive To Fix Like Leaning Tower Of Pizza

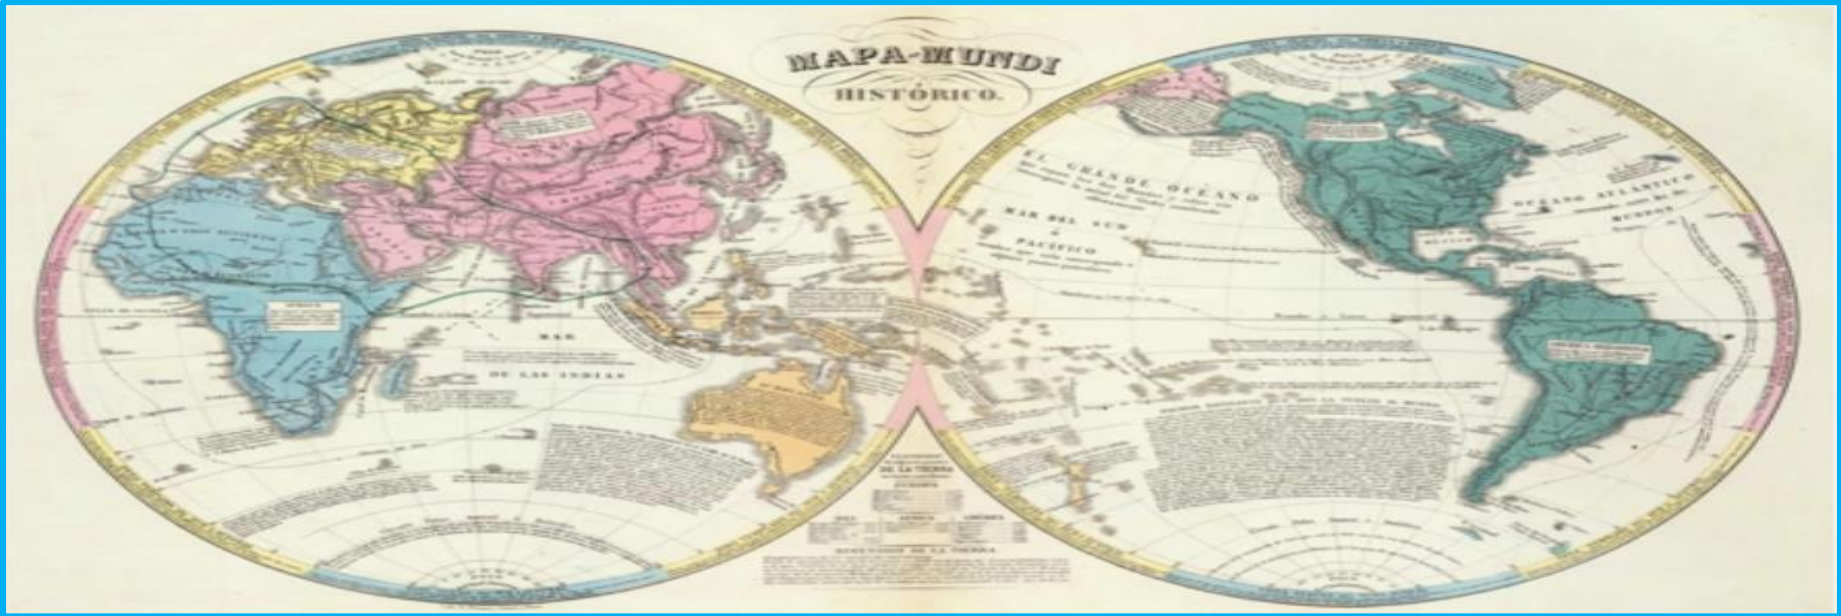

Testing/Café Babe/Fixture Tool (In Testing Fix Environment Required. Input Data, Mock Data.)/Queue

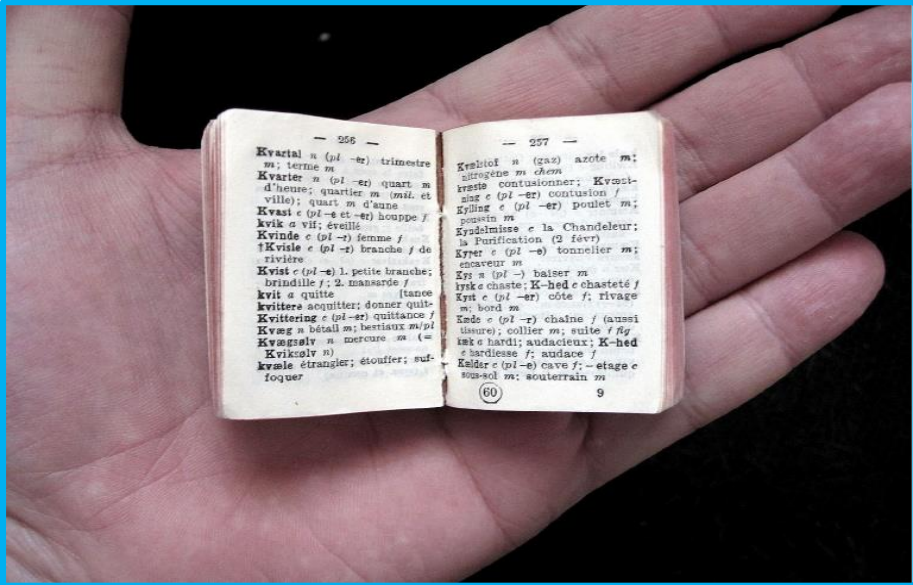

ArrayList Are More Cpu Cache Sympathetic, Backing Array Is Linear Address Space As In Memory Organization. Linked List In Java Is Doubly Linked List. Stack / Map

Map / Dictionary / Java 8 Enhancement

Good Design With Better Tools In Java Collection

Appropriate Java Collection To Use For Optimization/Require Functionality For Dependency Injection
